

Како претраживати  
електронске часописе  
преко КоБСОН-а

сервис EBSCO

# У EBSCO улазимо са странице КоБСОН-а Сервиси → Електронски часописи → EBSCO

The screenshot shows the KoBSON website interface. At the top, there is a navigation bar with links for 'Tražite', 'Udaljeni pristup', 'Mapa sajta', and 'Odjava'. The KoBSON logo is on the left, and the IP address 'IP: 147.91.1.45, KoBSON' is displayed. Below the logo, there is a breadcrumb trail: 'Početak / SERVISI / Elektronski časopisi / EBSCO /'. The main content area is titled 'EBSCO' and includes the text 'Izdavač: EBSCO Publishing'. There are two buttons for 'iz akademske institucije' and 'udaljeni pristup'. Below this, there is a section for 'Brzo pretraživanje' with a paragraph of text. A search box for 'Research databases' is also present. The right sidebar contains a list of links under the heading 'NOVI KORISNICI' and 'KAKO KORISTITI KOBSON'. The left sidebar contains a list of services under the heading 'SERVISI'.

**EBSCO**  
Izdavač: EBSCO Publishing

**iz akademske institucije** (podešavanje Proxy servera) | **udaljeni pristup** (o pristupu 'od kuće')

**Brzo pretraživanje**  
Najbrži pristup servisu iz akademske institucije. Ukoliko pretražujete izvan akademske mreže servis će Vas prepoznati kao "guest user", te Vam neće biti dostupni puni tekstovi. U tom slučaju koristite opciju udaljeni pristup.

**Research databases**  
Search

**O servisu**  
Agregatori su proizvođači baza podataka koji referišu časopise više izdavača, čime ih čine dostupnim za objedinjeno pretraživanje. Njihova prednost je i u tome što u sebe uključuju i časopise manjih izdavača, koji su jedino na ovaj način dostupni.  
Nedostatak se ogleda u tome što je za većinu časopisa puni tekst članka dostupan sa vremenskom zadržkom ("delay"). Za neke naslove on iznosi svega 3 meseca, ali ima i naslova gde je čak 24 meseca.  
Preko EBSCO servisa dostupno je 10 baza podataka koje obuhvataju razne naučne oblasti:

- Academic Search Premier**  
This multi-disciplinary database provides full text for more than 4,600 journals, including full text for nearly 3,900 peer-reviewed titles. PDF backfiles to 1975 or further are available for well over one hundred journals, and searchable cited references are provided for more than 1,000 titles.  
[Title List](#) [More Information](#)
- Business Source Premier**  
*Business Source Premier* is the industry's most used business research database, providing full text for more than 2,300 journals, including full text for more than 1,100 peer-reviewed titles. This database provides full text back to 1886, and searchable cited references back to 1998. *Business Source Premier* is superior to the competition in full text coverage in all disciplines of business, including marketing, management, MIS, POM, accounting, finance and economics. This database is updated daily on EBSCOhost.  
[Title List](#) [More Information](#) [Enhanced Business Searching Interface](#)
- ERIC**  
*ERIC*, the Education Resource Information Center, contains more than 1.3 million records and links to more than 323,000 full-text documents dating back to 1966.  
[More Information](#)
- Health Source - Consumer Edition**  
This database is the richest collection of consumer health information available to libraries worldwide, providing information on many health topics including the medical sciences, food sciences and nutrition, childcare, sports medicine and general health. *Health Source: Consumer Edition* provides access to nearly 80 full text, consumer health magazines.  
[Title List](#) [More Information](#)
- Health Source: Nursing/Academic Edition**  
This database provides nearly 550 scholarly full text journals focusing on many medical disciplines. *Health Source: Nursing/Academic Edition* also features the *Lexi-PAL Drug Guide*, which covers 1,300 generic drug patient education sheets with more than 4,700 brand names.  
[Title List](#) [More Information](#)
- Library, Information Science & Technology Abstracts**  
*Library, Information Science & Technology Abstracts (LISTA)* indexes more than 560 core journals, nearly 50 priority journals, and nearly 125 selective journals; plus books, research reports and proceedings. Subject coverage includes librarianship, classification, cataloging, bibliometrics, online information retrieval, information management and more. Coverage in the database extends back as far as the mid-1960s.  
[Title List](#) [More Information](#)
- MasterFILE Premier**  
Designed specifically for public libraries, this multidisciplinary database provides full text for nearly 1,700 periodicals with full-text information dating as far back as 1975. Covering virtually every subject area of general interest, *MasterFILE Premier* also contains full text for nearly 500 reference books and over 164,400 primary source documents, as well as an Image Collection of over 592,000 photos, maps & flags. This database is updated daily via EBSCOhost.  
[Title List](#) [More Information](#)
- MEDLINE**  
*MEDLINE* provides authoritative medical information on medicine, nursing, dentistry, veterinary medicine, the health care system, pre-clinical sciences, and much more. Created by the National Library of Medicine, *MEDLINE* uses MeSH (Medical Subject Headings) indexing with tree, tree hierarchy, subheadings and explosion capabilities to search citations from over 5,400 current biomedical journals.  
[Title List](#) [More Information](#)
- Newspaper Source**  
*Newspaper Source* provides cover-to-cover full text for more than 40 (U.S.) & international newspapers. The database also contains selective full text for 389 regional (U.S.) newspapers. In addition, full text television & radio news transcripts are also provided.  
[Title List](#) [More Information](#)
- Regional Business News**  
This database provides comprehensive full text coverage for regional business publications. *Regional Business News* incorporates coverage of more than 80 regional business publications covering all metropolitan and rural areas within the United States. Click here for a complete title list. Click here for more info.  
[Title List](#) [More Information](#)
- GreenFILE**  
*GreenFILE* offers well-researched information covering all aspects of human impact to the environment. Its collection of scholarly, government and general-interest titles includes content on global warming, green building, pollution, sustainable agriculture, renewable energy, recycling, and more. The database provides indexing and abstracts for more than 384,000 records, as well as Open Access full text for more than 4,700 records.  
[Title List](#) [More Information](#)
- European Views of the Americas: 1493 to 1750**  
This new bibliographic database is a valuable index for libraries, scholars and individuals interested in European works that relate to the Americas. EBSCO Publishing, in cooperation with the John Carter Brown Library, has created this resource from "European Americana: A Chronological Guide to

# И када добијемо резултате, можемо ограничити претраживање (период и сл.)

The screenshot shows the EBSCO Academic Search Premier interface. At the top, there is a navigation bar with 'New Search', 'Subjects', 'Publications', 'Images', and 'More'. On the right, there are links for 'Sign In', 'Folder', 'Preferences', 'Languages', 'New Features', and 'Help'. The search bar contains the query 'Migration patterns' in the 'TI Title' field. Below the search bar, there are two additional rows for 'AND' searches with empty input fields and 'Select a Field (optional)' dropdown menus. A 'Search' button and a 'Clear' button are visible. The 'KOBSON' logo is in the top right corner.

Below the search bar, there are links for 'Basic Search', 'Advanced Search', 'Visual Search', and 'Search History'. The main content area shows 'Page: 1 2 3 4 5' and 'Relevance Page Options Alert / Save / Share'. On the left, there is a sidebar with '80 Results for...' and 'Booleam/Phrase: TI "Migration patterns"'. Under 'Limiters', there are checkboxes for 'Full Text' (checked), 'Scholarly (Peer Reviewed) Journals' (checked), and 'References Available' (unchecked). Under 'Refine your results', there are checkboxes for 'Full Text' (checked), 'References Available' (unchecked), and 'Scholarly (Peer Reviewed) Journals' (checked). There is a 'Publication Date' filter set to '1973' to '2012' with a range slider and 'Update' and 'Show More' buttons. Under 'Source Types', there are checkboxes for 'All Results' (checked), 'Academic Journals (77)' (unchecked), and 'Reviews (3)' (unchecked). There is an 'Update' button.

The main content area displays three search results:

The screenshot shows the EBSCO Academic Search Premier interface. At the top, there is a navigation bar with links for 'New Search', 'Subjects', 'Publications', 'Images', and 'More'. The search bar contains the query 'Migration patterns' and is set to search in the 'TI Title' field. The search results page displays 80 results for the query. On the left side, there are filters for 'Refine your results' and 'Source Types'. A detailed record popup is open over the first result, showing the following information:

- Title:** Contrasting extreme long-distance migration patterns in bar-tailed godwits *Limosa lapponica*.
- Authors:** Battley, Phil F., Warnock, Nils, Tibbitts, T. Lee, Gill, Robert E., Piersma, Theunis, Hassell, Chris J., Douglas, David C., Mulcahy, Daniel M., Gartrell, Brett D., Schuckard, Rob, Melville, David S., Riegen, Adrian C.
- Source:** Journal of Avian Biology
- Date:** 2012
- Publication Type:** Academic Journal
- Subjects:** BAR-tailed godwit; BIRDS -- Migration; BIRDS -- Breeding; ARTIFICIAL satellites in biology; BIRDS -- Habitat; AUSTRALASIA; YELLOW Sea; ALASKA
- Abstract:** Migrating birds make the longest non-stop endurance flights in the animal kingdom. Satellite technology is now providing direct evidence on the lengths and durations of these flights and associated staging episodes for individual birds. Using this technology, we compared the migration performance of two subspecies of bar-tailed godwit *Limosa lapponica* travelling between non-breeding grounds in New Zealand (subspecies *baueri*) and northwest Australia (subspecies *menzbieri*) and breeding grounds in Alaska and eastern Russia, respectively. Individuals of both subspecies made long, usually non-stop, flights from non-breeding grounds to coastal staging grounds in the...
- Database:** Academic Search Premier

A red circle highlights a magnifying glass icon in the popup, indicating that clicking on it allows the user to view a larger version of the abstract. The background shows the search results list with the first result selected, and a 'Related Images' section on the right.
